

SELF-LEVELING OVERLAY

Our self-leveling overlay flooring is a great option for those who want to achieve the look of a new polished concrete floor but don't have the height required to pour a traditional concrete topping slab. Because self-leveling material requires only 3/8" of height, it can be applied almost anywhere, making it a popular choice for urban and commercial spaces.

PRODUCT INFORMATION

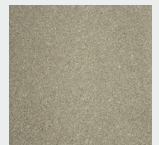

- Standard and custom colors/finishes
- Durable and low maintenance
- Thin buildup
- Ideal for resurfacing existing concrete
- Consistent appearance
- Highly engineered + crack resistant
- Rated for commercial use
- Qualifies for LEED v4.1

STANDARD PRODUCT DATA

CSI SECTION	03 53 00
STRENGTH	6,500 psi
THICKNESS	3/8" Minimum
WEIGHT	4 lbs +/- at 1/2"
JOINTS	Dependent on existing conditions
SUBSTRATE	Structurally sound concrete

STANDARD FINISH OPTIONS

Polished, standard aggregate exposure

Polished, heavy aggregate exposure
